news on Facebook!**

Members in need of a vehicle:

Would you like smooth sailing through the car buying process?

Get pre-approved with the Credit Union before you shop for a car! The benefits of preapproval include:

- Saves time.
- More bargaining leverage with the dealers. You will know what you can spend and be able to negotiate a better offer as if you were paying cash.
- Avoid getting talked into special financing instead of the manufacturer rebate. In most instances, taking the rebate can save more than taking the 0% financing. Usually you only can get one or the other.

You can fill out an application online, by phone or in person. Provide us with your last check stub and a contact telephone number and someone will contact you.

Let your Credit Union finance your next vehicle at a great low rate! Call us today at 318-222-0300.

We also have a relationship with Enterprise Car Sales.

Call Enterprise and ask for our Representative Chena Johnson.
